WORK EXPERIENCE

Finance Tracker   **May 2023 – Present**
Founder & Developer   *Cork, Ireland*
- Engineered an advanced expense and income tracking system, offering users a comprehensive platform to monitor their financial inflows and outflows Here
- Built with Next.js, Tailwind, Typescript, Prisma, PostgreSQL for a robust and user-friendly financial tracking experience.
- Implemented CI/CD using GitHub Actions and ensured data security with custom JWT authentication.

OpinionRoute   **June 2023**
Backend Node.js intern   *Cork, Ireland*
- Collaborated in the integration of multiple Zapier Triggers and Actions through the CLI, streamlining workflow automation and enhancing data connectivity.
- Actively participated in daily stand-up meetings, contributing to iterative development cycles and practicing agile methodologies to ensure efficient project progress and timely deliverables.
- Gained Valuable hands-on experience in backend Node.js development, further solidifying programming skills and deepening understand of server-side technologies.

Global Reviews   **June 2021 – October 2021**
External Client Auditor (remote)   *Cork, Ireland*
- Conducted through audits of major bank websites, including HSBC and Avant Money, evaluated specific features for user experience and functionality, resulting in actionable insights that led to improved digital platforms and enhanced customer engagement.

EDUCATION

Kinsale Community   **2018 - 2024**
Computer Science   *Cork, Ireland*
- Recognized as a top-performing student, I went beyond the classroom by assisting fellow students with their end of year projects. I stepped in to complete projects when they faced challenges, showcasing my dedication to both academic excellence and helping others succeed. Through these collaborative efforts, I not only demonstrated my mastery of these subjects but also fostered a culture of support and shared achievement within the school community.
